From 2008-2009	Valves & Tools	Rig # (4) as an Assistant Driller	(Syria)

## **From 2009 till now working as a NDC for Valves &Tools Rig # 19 in UA**

I am Working With **Rig # 19 UA.** Type 2000 H.P. can rig Top Drive & I have valid Well Control.

Performs and supervises all Drill Floor activities as established by company management systems. Operates Pump, Rotary Table, and Drawer Works Controls to drill ahead, change Bits, Run Casing or Tubing, Run Fishing or Testing Tools, change Blow Out Prevent or, install Well-Head equipment or to accomplish other work required in the Rotary Drilling process. Determines Down Hole conditions by close observation and interpretation of Mud Weights, circulating pressures, Pit levels, Penetration Rates, Drilling String weights, Drilling String Torque, etc. and takes action as indicated.

Prepares IADC Report of drilling activity showing footage made, drilling, dead or lost time, and other work performed, including repairs made to Mud Pumps and other non-motive Rig Equipment

Works as required to lead and direct the drilling crew while Rigging Up or Down and in accomplishing repairs or making changes involving rig equipment such as Swivels, Shale Shakers, Fishing Tools, Pipe Racks, Drilling Fluid System, Traveling and Crown Blocks, Drilling Lines, Drilling Strings and Blow Out Prevention equipment. Takes any action that is considered necessary to drill Safely and efficiently including Shutting Down Rig.

**SAFETY COURSES ATTENDED:**

- Introduction to well Control.
- Emergency Response.
- NORM.
- NORM Tester.
- H2s Awareness.
- General Safety Inductions.
- First Aid.
- Fire Fighting.
- Safe Handling of Chemicals.
- Rigging & Slinging.

I hope to get the chance to join your an International Team

**Best Regards of Taha Ali Hasan**
