Общие сведения

Group-IB – one of the leading companies in fraud prevention, cybercrime and hi-tech crime investigations.

Key activities of our company:
• Cyber Intelligence and Threat Prevention
• Information Security Assessment and Vulnerability Research
• Computer Forensics
• Cybercrime and Hi-Tech crimes investigations
• Innovative software products development for monitoring, detection and prevention of emerging   cyberthreats.

In the technologies field, it is imperative that our team members are on the cutting edge. That is why our employees have earned several certificates: CISSP (Certified Information Systems Security Specialist), CISA (Certified Information Systems Analyst), CEH (Certified Ethical Hacker), Extreme Networks Administrator, A+ Certification, Net+, MCP (Microsoft Certified Professional), and MCSA (Microsoft Certified Systems Administrator).

We have more than 90 employees serving customers in more than 25 countries. Our clients include various banks, financial institutions, oil and gas companies, software and hardware vendors, telecommunications service providers from Australia, Argentina, Brazil, Canada, EU, Russian Federation, UK, USA and Ecuador.

Group-IB employees participate in key IT-security conferences such as e-Crime, Cardex, APWG:Counter-eCrime Operations Summit (CeCOS), Cyber Intelligence Asia and the SCADA Security Summit.
