The responsibility for the command of the police force, its recruitment, discipline, internal economy and administration throughout the general police districts vests in the Inspector-General of Police. He is head of the Police Department, and is responsible for its direction and control and for advising the Provincial Government in all matters connected with it. In the discharge of his duties as Inspector-General and in the execution of orders of Government he is bound to act in conformity with the system and regulations regarding the functions, discipline and administration of the force contained in the Police Act (V of 1861) and in these rules. Orders of the Provincial Government affecting the police force, in whole or in part, will be issued through him.

The Inspector-General is assisted in the control and administration of the police force by such number of Deputy Inspectors General and Assistant Inspector General as the Provincial Government may from time to time appoint.

1.3 General Police, Districts-Division of -

The Provincial Police general district is divided into administrative establishments; a Training School (including the Provincial Finger Print Bureau); a Criminal Investigation Department, and District Police Establishments. The Railway Police, general district, is divided into a Central Investigating Agency, and such number of sub-divisions as the Provincial Government may authorize from time to time.

1.4 *Administrative Division*

The districts of the province are grouped in Ranges and the administration of all police within each such range is vested in a Deputy inspector-General under the control of the Inspector-General of Police.

The Criminal Investigation Department is administered by a Deputy Inspector-General, who also Supervises the Finger Print Bureau.

He is also authorized to call upon the district or railway police for action in such matters, whether in respect of crime or intelligence, as may, from time to time, be consigned to his charge. In respect of Crime, however, he will keep the Deputy Inspectors-General of the ranges concerned fully informed of all action which his department is taking within the sphere of their jurisdictions.

The Deputy Inspector-General of a range is responsible to the Inspector-General for the administration, Training and discipline of the police of his range and for the efficiency of their organization and aperations for the prevention and detection of crime. In the exercise of this responsibility a Deputy Inspector-General will interfere as little as possible with the executive authority of the Superintendents under him, and will permit such modifications of practice and organization to sit local conditions as he may consider advisable, and as the law and these rules allow. He will use his powers of control to secure a uniform standard of efficiency and the fullest co-operation between districts and branches of the force in the circulation of information and in action against criminals.

To ensure that efficiency shall not be impaired by undue variation in methods or practice in different parts of the province, Deputy Inspector-General of ranges and of the Criminal Investigation Department and the Assistant Inspector General,

His knowledge and authority should at all times be at their disposal for promoting police efficiency and for concerting measures for the better control of crime. Cases in which differences of opinion arise between a Deputy Inspector-General and a commissioner or District Magistrate on matters in which the orders of Government are advisable shall be referred through- the Inspector-General.

Assistant and Deputy Superintendent of Police are posted to districts and other duties at the discretion of the Provincial Government to be trained and to assist the Superintendent in the discharged of his responsibilities and the authority of the Superintendent is delegated to them to the extent prescribed by these rules.

1.10 *Police Station jurisdiction*

Districts and the railway police sub-division are divided into police station jurisdictions according to administrative convenience and in order to meet the requirements of the Code of Criminal Procedure [Section 4 (1) (S)]. The boundaries of these jurisdictions have all been fixed from time to time on the authority of the Provincial Government, and are unalterable save under the same authority. Outposts are located where necessary for the control of crime and are subordinate to the police stations in the jurisdictions of which they are located. Normally, a police station is in charge of a sub-inspector or police and an outpost is commanded by an assistant sub-inspector or head constable.

No alteration in the number of police stations and outposts or in the boundaries of police station jurisdictions may be made without the sanction of the Provincial Government. Proposals for such alterations shall be submitted, in the form outlined in Appendix 1.10, by Superintendents of Police, through the District Magistrate to the Deputy Inspector-General of the range. The definition of " officer in charge of a police station," in section 4 (1) (P), Code of Criminal Procedure, empowers other police officers, in certain circumstances, to exercise the powers of such an officer.

The expression “ lower subordinate” includes all other enrolled police officers.

PART II – RELATIONS BETWEEN POLICE AND MAGISTRATES

1.14 The commissioner

The Commissioner exercises through his District Magistrate a general control over the administration of his division in criminal as in other matters, and is specially responsible for the maintenance of co-operation between the police and the magistracy and of cordial relations with the police officials of Indian State on the border. He is expected to give attention to special reports and measures for dealing with special types crime, the working of the Criminal Tribes Act, the location of additional police quartered in disturbed areas and the work of the prosecuting agency.

It is the duty of the Deputy Inspector-General of the range to keep the Commissioner of the division fully informed of all matters of importance concerning the efficiency of the police and the state of crime.

1.15 *The District Magistrate*

The District Magistrate is the head of the Criminaladministration of the district, and the police force is the instrument provided by Government to enable him to enforce his authority and fulfill his responsibility for the maintenance of law and order. The police force in a district is, therefore, placed by law under the general control and direction of the District Magistrate who is responsible that it carries out its duties in such a manner that effective protection is afforded to the police against lawlessness and disorder.

In the exercise of this control the District Magistrate is required to inspect police stations. He shall exercise no executive authority in matters which concern

solely the internal administration and training of the force, or in questions, of discipline as between police officers and their departmental superiors, but his general control extends to all other matters. In all that affects the relations between the police and the police or the keeping of the public peace, the district Magistrate must be consulted and his orders complied with.

He may (a) required the Superintendent to furnish him with any documents relating to the conduct of any subordinate enrolled police officer in any case in which the conduct or character of such police officer is likely to affect his dealings with the public or the prevention and delection of crime; (b) direct the Superintendent to enquire into any allegation of misconduct or neglect of duty on the part of any subordinate enrolled police officer in any case in which such misconduct or neglect of duty affects, or is likely to affect such officer's dealings with the public, or the prevention and detection of crime, and to submit the record to superior police authority; and (c) direct the Superintendent to furnish information on any matter connected with crime, the criminal classes, the prevention of disorder or the distribution of the police force, or on any other matter not connected solely with the internal administration of the force.

In exercising his powers of control, the District Magistrate should avoid doing anything to weaken the authority of the Superintendent, All communications between the District Magistrate and the police shall, whenever possible, be conveyed through, and all instructions and orders to them shall similarly be issued from, the Superintendent.

Note:- The above rule covers the position of District Magistrates in relation to the railway police. The District Magistrate has no departmental authority over such police, but his responsibility for the criminal administration of the district includes that portion of the railway police jurisdiction which lies within it. He has, therefore, the same authority to call for information and to inspect police stations which the has in respect of the district police, and the same interest in the prevention, detection and prosecution of railway crime as in the case of district crime.

1.16 *Duties of superintendent towards District Magistrate*

The primary duty of the Superintendent of Police is to afford the District Magistrate the utmost possible assistance both himself and through the police force under his command in the preservation of the peace and the prevention or detection of crime. He shall keep in close and constant personal touch with the District Magistrate and shall keep him fully and promptly informed, both by personal conference and by written reports, of all matters relating to crime and public order. While it is his duty to initiate action by the police in such matters, he must keep the District Magistrate informed and be guided by his orders.

The Superintendent of Police shall keep the District Magistrate informed of his movement generally when away from headquarters, and shall conformed to his wishes should the District Magistrate, for reasons connected with the criminal administration of the district, require the Superintendent of Police to proceed to any place in the District or to remain at headquarters at any time.

1.17 *Authority of District Magistrate In regard to posting etc*

All postings, removals and transfers of officers Incharge of police stations within a district, shall be made by the Superintendent with the approval of the District Magistrate.

If the District Magistrate considers the presence of a police officer of or below the rank of sub-inspector prejudicial to the welfare of the locality in which he is posted, he may direct his transfer elsewhere within the district. In the case of dissatisfaction with the work or conduct of officers above the rank of sub-inspector. District Magistrate shall communicate their complaint to the Deputy Inspector-General of the range.

1.18 *Sub-diivisional and Sub-ordinate magistrates authority of-*

The authority of a sub-divisional or a subordinate magistrate over the police is strictly limited to the powers given him by law in the exercise of his judicial functions. Any adverse comments on the proceedings of the police, which he may make, shall be communicated to the superintendent through the District Magistrate. Similarly, if

he considers that any police officer should be called on to explain his conduct, he shall report the facts of the case to the District Magistrate, who will take such action as he considers necessary.

1.19 ***Sub-divisional and subordinate Magistrates- Co-operation with--***

Sub-divisional and subordinate magistrates are held strictly responsible, under the control of the District Magistrate, for the maintenance, of the peace of the area which is made over to their charge; through they have no extra-judicial authority over the police, they are not merely judges. The law gives them many more powers than those required for hearing cases, and they are interested in every crime in their jurisdiction from the moment of its commission. The maintenance of law and order and the suppression of crime depend upon the joint efforts of the public, the magistracy and the police, and not upon the energy of any one of these alone. The most intimate and friendly co-operation between the police and the magistracy as a whole, and between particular magistrates and the police stationed in the area of their jurisdiction, is essential. Superintendents of Police must encourage such co-operation by every means and must sternly check all contrary tendencies. Gazetted officers and upper subordinates should cultivate friendly personal relations with all magistrates with whom their work brings them in contact, and every opportunity should be taken to keep magistrates informed of the state of crime in their ilaqas, Conferences between magistrates and police officers, at which difficulties on either side cn be discussed and remedies devised, should be encouraged; police officers coming in with chalans should frequently take the opportunity of obtaining an interview with the liaqa Magistrate and discussing with the state of crime in their jurisdictions; and prosecuting officert, who for a valuable link between the investigating officers and the magistracy any information of interest of importance regarding criminal matters of which they may be aware. (See also rules 21.1 and 21.2)

Note- The remarks of the Indian Police Commission, 1902-03, on the subject of relations between the police and magistrates are published as Appendix 1.19.

1.20 ***Right of sub-divisional and Subordinate magistrates to Inspect police records.***

Sub-divisional and subordinate magistrates are not authorized to inspect police stations or to record remarks or criticisms in inspection books; provided that the District Magistrate, with the concurrence of the Deputy Inspector-General, may permit a Sub-divisional Magistrate, who is a senior Assistant Commissioner, to make such inspections, and to record his remarks in the inspection book. A Sub-divisional, or illaqa Magistrate, may, however, in his executive capacity, call for any of the records and registers which deal with crime from a police station, and may request the officer Incharge of a police station, to come to him and explain them. The orders of Government regulating the production of police records in courts of law are contained in rule 27.24.

1.21 ***Police to obey all orders issued In a judicial capacity***

APPENDIX No.1.19

EXTRACT FROM THE REPORT OF THE INDIAN POLICE COMMISSION, 1902-03.

124 * * * * *

This is the connection which the law intends to exist between the magistrate empowered to take cognizance of police cases and the police. It involves the first information being sent to this magistrate, his being able to watch the case from the first, to order investigation where the police.; are not investigating, or to proceed to take up the case himself, and his being kept in touch with the police investigation up to the very last. His connection with the case is intended to begin with the first information and to continue to the ead; throughout he is intended to exercise an intelligent interest in it. These provisions are very generally lost sight of. The intention of the law is defeated when the first information is sent; not as required by section 157 to the magistrate having jurisdiction, but nominally to the District Magistrate, really to a prosecuting inspector or other official at headquarters, who files it until the case is sent up finally for trial. It is also defeated when the magistrate assumes what the imagines to be a judicial attitude. And never looks at a paper or takes any interest in the case until it come before him in court, and proceeds to dispose of it with regard only to what is put before him by the parties without any effort to do what more he can to arrive at the truth. A valuable check on police work and valuable powers in criminal administration are thus lost.

125.

Intention of the law is that the police and the magistracy should work together, the former investigating the case for the magistrate, and the later conducting the magisterial enquiry or trial, weighing the evidence collected by the police, sifting further any poins that have been missed or inadequately treated, hearing all that the accused has to say or adduce on his own behalf, and deciding the case in the interest of truth and justiace. * *

126. * * * * *

* * * * *

The courts should be encouraged to take notice of any misconduct on the part of a police officer, or of any reasonable suspicion that he has been guilty of such misconduct. Unless such misconduct is established after hearing any explanation the police officer concerned may have to offer, or unless reference to it is necessary for the elucidation of the case, it is only just to him that no notice of it should be taken in the judgment; but a separate note should be at once forwarded to the District Magistrate, who should pay due attention to it, conducting by competent and impartial agency any enquiry that may be necessary, and absolving from blame any police officer who may after all be found innocent of fault, but taking adequate notice of any misconduct that may be established.

Note:- The principles enunciated in the concluding portion of the above quotation have been accepted by the local Government and are embodied in Chief Court Circular No. 7-3482-G of 19th September, 1903, which reads as follows:-

Chief Court Circular No. 7-3482-G, dated the 19th September, 1903

Dated Lahore, the 19th September, 1903.

To

All Sessions Judges, District Magistrates and Subordinate Criminal Courts in the Punjab.

The attention of presiding officers of all criminal courts is called to the following extract from the proceedings of His Honour the Lieutenant-Governor of the Punjab in the Home (Police) Department, No. 1632-S, dated 30th August, 1903:-

> " *The Lieutenant-Governor agrees with the Inspector-General of Police that it is undesirable for magistrates to make remarks in criminal cases censuring the action of police officers unless such remarks are strictly relevant to the case and the officers concerned have had an opportunity of explaining their action. If remarks to which exception can be taken come to the notice of the Inspector-General of Police, They should be referred for the orders of the Lieutenant-Governor, who will invite the attention of the Hon'ble Judges of the Chief Court to any case in which action can appropriately be taken.*"

The Hon'ble Judges trust that all courts will be careful in future to observe the rule laid down in these remarks. District Magistrates should themselves take whatever action seems desirable in any case coming to their notice in which the spirit of the rule has been infringed by any court subordinate to them.

CHAPTER II - Establishments

PART I --- PERMANENT ESTABLISHMENT

2.1 ***Permanent establishment how fixed***

The permanent establishment of a district is fixed on a careful calculation of the actual number of men required for fixed duties plus the percentage approved by Government as a reserve to provide for casualties and training in the various ranks. The establishment of each district is shown in a distribution statement in Form 2.1, issued by the Inspector-General.

2.2.

(1) The term “fixed duties” includes:-

Fixed duties

A Cantonment and city police.

B Rural police stations and their subordinate posts.

C Headquarter establishment; guards; escorts; specialists (e.g., traffic staff); armed reserves, and mounted police.

D Office and court duties.

(2) Under division A the establishment required shall be calculated separately for (1) the investigation and stationhouse staff (2) the watch and ward staff. No General scale can be laid down. In ca, culating the investigation and stationhouse strength the principles by which the strength of rural police stations is fixed (sub-rule 3 below) shall by followed as far as possible, but additional provision will frequently be necessary for duties such as telephone orderlies, extra clerical staff, detective staff, a permanent lock-up guard, & c. In estimating the beat staff it is necessary to plot out on a map after close study of local conditions, the number of fixed points (other than special traffic points) day and night beats, and patrols required for each town or cantonment. Careful consideration shall be given to economizing men by providing intermittent patrols instead of fixed points of beats, and by providing means of locomotion to enable a few men to cover a considerable area, whenever possible,

When the number of beats, & c., has been fixed, the establishment necessary to furnish them shall be calculated on the basis of every man performing eight hours duty in each period of twenty-four hours. On this basis, the necessary calculations can be made for, and rotation of duties fixed between, day and night duties, duties lasting throughout the twenty-four hours, and intermittent duties. Supervision over the watch and ward staff shall be provided at the rate of I head constable to every 10 constables; I assistant sub-inspector to every 5 head constables and I sub-inspector to every 100 constables. No ratio between police and population is prescribed, except that in the case of towns with a population of over 30,000 the total strength of police for watch and ward should not ordinarily exceed on constable to every 450 inhabitants, In each case local conditions, such as the volume of commercial activity, the importance and frequency of fairs and festivals, the general criminality of the neighbourhood and the like must be considered.

(3) The strength of rural police stations (division B) is based mainly on the incidence of crime. A normal police station is held to be one registering an average of seventy-five cases a year. For such a police station the minimum staff shall be I sub-inspector, I assistant sub-inspector, I head constable (clerk) and 12 foot constables. In police stations, where crime is very light the number of constables may be reduced to ten. For every fifty cases above the normal figure shown to be the annual average of a police station, the staff shall be increased by I assistant sub-inspector and 2 constables. This standard calculation may be varied for adequate reasons in special cases. The staff of outposts shall be calculated strictly in accordance with the duty it is required to perform.

(4) In division C, headquarter establishment shall be calculated in exact detail of authorized posts to be filed. Under this heading shall be included all enrolled personnel of the lines establishment, instructors, orderlies, of all descriptions, and upper subordinate. Who do not come under any other division. Guards shall be calculated at the actual strength required to form each guard, four constables being allotted to each sentry post, the number of constables allotted to each sentry post being fixed in accordance with rule 18.5 (5), and a second head constable being provided for each guard which furnishes more than two sentries. The strength

required for escorts shall be calculated on the scales laid down in Chapter XVIII in relation to the average demands in the district for treasure and prisoner escorts, other than the escorting of under-trial prisoners to and from the courts. Provision may be made, if necessary, for escort at sub-divisions as well as at headquarters. The staff of specialists shall include the special detective staff or traffic staff and such other personnel as may be authorized for particular duties not included in any other division. The strength required for traffic duties shall be calculated on the lines prescribed in sub-rule (2) above for watch and ward duties; other special staff shall be calculated in strict accordance with actual duties to be performed.

(5) Court and office duties (division D) shall be calculated according to the actual number of posts to be filled both at district headquarters and at sub-divisions and other magisterial headquarters on the scale prescribed by Police Rules or other competent authority. In addition, establishment shall be provided, on the scale prescribed in Chapter XVIII and on the basis of the average daily number, for the escort of under-trial prisoners to and from the courts, and the guarding of such prisoners in court, at district headquarter and all other places where such escorts are permanently required.

(6) In the calculation of fixed duties no provision shall be made for reserves, or for relief's otherwise than as provided in the foregoing sub-rules. Deficiencies in strength of short duration shall be met by curtailment of duties; those of longer duration caused by leave, other than casual leave, resignations, etc., shall be made good from the reserves referred to in rule2.3 below.

2.3 *Reserves*

Reserves in the various ranks are fixed to provide for casualties and training. Reserves in the ranks of gazetted officers are included in the cadres, as fixed by the Secretary of the State and Government of India. The reserve in the rank of sergeants is fixed at 10 per cent, of the sanctioned number of European inspectors and sergeants; that in the rank of sub-inspectors at 15 per cent of the sanctioned number of Indian inspectors and sub-inspectors; that in the rank of head constable at 14 percent, of the sanctioned number of assistant sub-inspectors and head

constables and that in the rank of constable at 16.5 percent of the number of constable sanctioned for fixed duties. The strength of armed reserves and mounted police is fixed for each district in accordance with the orders of the Provincial Government.

2.4 ***Authorized duties***

In calculating establishments every duty for which proper authority exists shall be included, and authority shall be obtained from the Inspector-General for any duty the necessity of which can be established, if it is not already authorized. Police shall on no account be supplied, except as provided in rule 2.16 or for other emergent and purely temporary occasions, for duties which are not so authorized.

2.5 ***Permanent additions to the ordinary force***

All proposals for the revision of establishment shall be submitted officially through (1) the District Magistrate, (2) Deputy Inspector-General of Police, (3) Commissioner and (4) the Inspector-General of Police for the orders of Government A proposition statement in Civil Account Form No.5 shall be submitted in cases which relate to a general revision of establishment or which cannot be set out clearly without it. 2.6 ***Method of submitting proposals***

(1) Proposals shall be accompanied by a copy of the distribution statement-Form 2.1 and a concise and comprehensive statement showing the object of the proposed revision and the date from which it is intended that it shall have effect. Whenever the figures for the reserve represent less than the percentages prescribed in rule 2.3 calculated on the revised establishment, application shall be made for the necessary increase to bring up the reserve to the authorized scale. In the case of proposals for the reduction of establishment reserve shall be similarly adjusted. The channel of submission shall be as in rule 2.5. above.

(2) Proposals affecting upper and lower subordinates shall be submitted on separate forms.

2.7 *Initial and annual charges*

In all applications for revision of establishment due provision shall be made for initial charges of Rs. 200 in the case of each upper subordinate and Rs. 10 in case of each lower subordinate on account of clothing; and Rs. 15 on account of beds and boxes in the case of each lower subordinate added to the strength. 2.8 Calculating rates of pay and grades

In calculating the cost of proposed revision of establishment the pay of appointments shall be estimated at the mean rate of pay of the time scale of the rank concerned. In the case of ranks for whice selection grades are authorised such proportion of proposed new appointments shall be shown in each of such grades as may be required to maintain the authorized percentages thereof. In the ease of proposals for reduction of establishment similar grades shall be made in district offices for the rank of constable, in range offices for the rank of sub-inspectors and in the Central Police Officer for other ranks.

Superintendents may, however, use their discretion in dealing with cases in which, in their opinion, the 24 hour rule cannot in fairness be applied.

the general public interests demand, the person or persons responsible for the assembly concerned, the person or persons responsible for the assembly concerned should pay for additional police. APPENDIX No. 6.10(2)

INSTRUCTIONS FOR CLEANING MUSKETS B.L. 410 BEFORE AND AFTER FIRING

Requirements—

Pullthroughts, .303" arms	.. 1 per musket
Gauze, wire (4" *1½ ")	.. 1 per musket
Bottles, oil	.. 1 per musket
Sticks, cleaning, chamber, .303" arms No.2	.. 1 per 6 muskets
Oil, Lubricants, G.S. .. galls	2 per 100 muskets
Flannelette .. yds	1 1¼ per musket

Cleaning Material.—The pullthrough which will be kept in the butt trap of the musket is provide with three loops. The first loop (the one nearest the weight) is for the wire guaze, the second for the flannelette and the third for the purpose of removing the pullthrough should it break or get jammed in the bore. If a jam occurs the man must not attempt to remove the obstruction but the musket be taken to the Armourer.

Flannelette.—No other form of material will be used for cleaning the bore. For cleaning the bore (or for drying it) after firing a piece of flannelette large enough to fit the bore tightly, 4" * 4" will be used. It will be placed in the second loop of the pullthrough and warpped round the cord.

For oiling the bore a slightly piece of flannelette will be used. If the piece used is too big, the oil will be scraped off as it enters the bore. The oil should be well rubbed with the fingers into the flannelette.

Wire Gauze.—In piece 4 * " 1½", only required after firing buckshot, and, when necessary to remove fouling or rust, after ball firing when not removable with the flannelette then only with the permission of an officer.

In attaching it top the pullthough the following method will be adopted :-

(i) Folding the gauze as in diagram so that the longer sides take the form of an “S”.

(ii) Open the front loop of the pullthough and put one side of it in each loop of the “S”.

(iii) The coil each half of the gauze tightly round that portion of the cord over which it is placed until the two rolls, thus formed, meet. The gauze must be thoroughly oiled before use and care taken to ensure that there are no loose strands of wire which may scratch the bore, the gauze will fit the bore tightly and will, if necessary, be packed with a small piece of flannelette, or other soft material to ensure it so fitting.

The gauze wire should not be allowed to remain on the pullthough.

Oil.—Service oil is carried in the oil bottle for which a recess in the butt is provided. No other form of lubricant is to be allowed to remain in the bore. Paraffin, though an effective agent in removing rust, will not prevent it.

Stick Cleaning Chamber.—Made of wood about a foot long, at one end a slot is cut other end is cut square to allow a grip to be taken and the stick to be turned by hand. A piece of dry flannelette is placed in the slot and wound round the sick (top ensure that the stick is covered). The stick is then passed through the bolt way into the chamber and turned round servel times. This is the only effective method of cleaning the chamber.

After firing. --

(i) Remove the bolt.

(ii) Pour about 5 to 6 pints of boiling water through the bore from breech to muzzle, using a funnel, point inserted into the chamber.

(iii) Insert the weight of pullthough the bolt hole of body then draw

straight through the barrel from breech to muzzle in one continuous motion. The rifle to be held by the left hand with the toe of the butt on the ground, and the barrel in line with the direction of pull to avoid the cord rubbing the side of the muzzle, otherwise it will cause a groove to be worn where it rubs against muzzle; this is know as “cord-wear” and affects accuracy and serviceability.

(iv) To be repeated as (iii) untill the rag is removed without sign of fouling on it.

(v) Clean the breech with a stick cleaning chamber.

(vi) Wipe over the face of bolt, clean gas escapes and bayonet boss.

(vii) If bayonets have been fixed during firing the bayonet will be carefully wiped before it is returned to the scabbard. All metal parts to be carefully wiped over and oiled.

(viii) The barrel to be pulled through with a piece of oily flannelette.

The bore will be found to require special care during the three days following firing:--

For buckshot or when necessary to remove bad “leading” or rust:--

(i) To be treated with boiling water as already detailed.

(ii) The pullthrough to have an oiled gauze wire 4” * 1½“ attached. Insert weight through the bolt way of body (care being taken to ensure the gauze enters chamber correctly and does not jam) and draw straight through the barrel; from breech to muzzle.

To be repeated if necessary by packing the gauze, until all “leading or rust is removed.

(iii) Followed by a piece of dry flannelette and then an oily piece to the usual way.

INSTRUCTIONS FOR THE EXAMINATION AND TEST AND STORAGE OF S.A. AMMUNITION ON CHARGE OF POLICE UNITS

General Instructions

1. Small arms ammunition may be divided into two categories as follow:-

(a) Ammunition in sealed boxes and in open boxes with their labels intact.

(b) Pouch or loose ammunition which cannot be identified by make and date.

Category A-(a) Ammunition in this category may be considered serviceable without test up to five-years from date of manufacture provide that the boxes are intact and have been subjected to bad storage conditions. The five year limit may be extended indefinitely provided that the ammunition has been used for practice and ahs given satisfactory result within the last twelve months.

(b) Ammunition over five years old which has not been used for practice within the last twelve months, or ammunition in boxes which appear to have been subjected to adverse storage conditions as indicated by rusty lininges, etc., will be examined and subjected to a firing test.

A sample box from each make and date of manufacture will be opened. The cartridges will be examined visually for evidence of verdigris around the cap and other signs of deterioration. Twenty

rounds will be fired from each of 2 rifles or muskets into a bank of earth or other safe place to test for misfires, hangfires; split cases, pierced caps bursts' etc.

(c) If the ammunition looks good and fires without failure, it is serviceable.

If the ammunition looks good and gives a misfire, marked hangfire, pierced cap, burst case, split extending to within one inch of the case, or a detached base disc, a re-test in different weapons will be carried out. If in the re-test, any of the above defects occur, the ammunition is unserviceable. If no defects occur at the re-test, the ammunition is serviceable.

If the ammunition looks doubtful, showing slight verdigris only, and if it passes firing test, it is serviceable. Providing the rifle or musket is know to be above suspicion.

If the ammunition looks bad showing marked verdigris around the cap, it is unserviceable.

The examination and test of the sample covers the remaining ammunition of the same make and date except when there is reason to believe that box opened is not representative of the rest. In that case it will be necessary to examine and test the ammunition from each box.

NOTE: 1 *When the number of boxes of one make and date is ten or under, they mat be grouped with whole group with adjacent dates of the same make provided that the group of dates does not exceed 50 Boxes that the dates do not cover a period of more than 14 days.*

NOTE: 2 *The sample will be taken from an opened box if available. If the result is satisfactory the whole group will be sentenced serviceable. If the result is not satisfactory the sentence will only*

cover the actual box from which the rounds have been taken and a fresh box will be opened and treated as the sample for the group.

Category B. Loose rounds on charge, other than those obviously doubtful from handling and carriage in pouches, will generally be treated as one group. Representative samples will be examined and 40 fired and the ammunition sentenced as or category A. If there is a large number of loose rounds on charge and some have obviously been subjected to worse treatment than the others they should be bulked into groups according to "condition", each group being tested and sentenced separately .

1. The foregoing is intended to apply particularly to M.H. Rifles and B.L. .476 bore ammunition.

2. *Special Instruction for examination of B.L. ".410",".303" and "455" revolver ammunition.*

(a) The instruction in paragraph 1 apply also to the above mentioned ammunition with the following exceptions :--

The casualties that may occur are misfires, hangfires, pierced caps, below backs, burst cases or spilt cases.

A blow—back is an escape of gas between the cap and the wall of the cap chamber, if serious, it will be indicated by the moment of firing. The base of the cartridge case will be badly blackened by this casualty.

A brust case is a fractures either at the base or within 1½ inches of the base of the cartridge case. Fractures further forward on the case body are know as splits and if only occasslonal may be ignored. Bursts are to be regarded as serious casualties.

1. When in doubt as to sentence, the matter should be referred to the Chief Ordnance Officer at the nearest Arsenal who will arrange for such test as may be

necessary and advise accordingly, or in case to further doubt, refer to the Inspector of Ammunition Kirkee.

2. *Storage.*—Boxes containing S.A.A. should be kept raised a few inches from the floor by supporting the bottom laver on battens or other suitable supports; they should also be kept a few inches clear of the wall.

The store room should be kept clean and dry, ventilation receiving due attention.

In all doubtful cases or where detail information is required the rules should be consulted in original. Clerks and others having access to the full rules are required to give all reasonable assistance to officers of what ever rank, who wish to ascertain their individual rights and obligations in respect of leave, or to obtain guidance for dealing with request received from their subordinates.

Note: Certain officers have exercised the option given to them at the time when the fundamental rules came into force of remaining under the leave rules to which they have previously been subject .The leave of such officers will not be regulated by Fundamental rules, but they are, equally with others, amenable to special departmental rules regarding leave.

8.2 *Principles governing the grant of leave.*

Leave is earned by time spent on duty only. Leave can not be claimedas of right; the authority empowered to grant it may refuse or revoke it in the interest of the public service, or in accordance with any duly authorized disciplinary rule.

8.3 ***Nature of leave and method of calculation.***

(1) A separate leave account (in A.F.No.75A./F.R.9-A) is maintained in the office to which he is subordinate for every police officer. In this account the leave to which he is entitled under the Fundamental Rules, is periodically Placed to his credit and he is debited with the leave which he has taken. Leave due may be granted on average pay or half-average pay, or partly on one and partly on the other according to the condition laid down in the Fundamental Rules. Leave not due may be granted on medical certificate and , in very exceptional circumstances, for not more than three months at any one time and six months in all otherwise than on medical certificate.

(2) Police Officers may be granted by the State Government under conditions specified in the Punjab Civil Services Rules, Volume 1 part 1, special disability leave if disabled in the performance or in consequence of their official duties or in consequences of their official position. Such lave is not debited in leave account. Under special circumstances , and when no other leave is by rule admissible extraordinary leave, without pay may be granted. Police Officers of and below the rank of Head Constable may be granted Hospital leave by the Superintendent of Police under whom they are serving while under medical treatment for illness or injury, if such illness or injury is directly due to risks incurred in the course of their official duties. Hospital leave may be granted on leave salary equal to either average of half average pay as the authority granting it may consider necessary .Hospital leave is not debited in leave accounts, and may be combined with any other leave which may be admissible : provided that the total period of leave after such combination shall not exceed twenty-eight months. The amount of Hospital leave which may be granted is limited to three months on average pay in period of three years. Hospital leave on half average pay counts for the purpose of this limit as half the amount of leave on average pay.

8.4 ***Special provisions Regarding leave***

The following rules relating to leave are to be observed by all police Officers:-

(a) A Police Officer who has taken leave on account of ill-health whether technically on medical certificate or not shall, before he is permitted to return to duty, be required by the authority which granted him leave to produce a medical certificate in the following form :-

"I, A.B. ----------, do, hereby certify that I have examined C.D----------and that I consider him fit to resume his duties in Government service."

The officer shall produce the original certificate and statement of the case on which the leave was granted or extended before he authority asked to grant a certificate or fitness to return to duty. In the case of Gazetted officers this certificate must be signed by a Civil Surgeon or Medical Officer of commissioned rank. If the leave has been sanctioned on a certificate granted by a Medical Committee the certificate of fitness to return to duty must also be obtained from a Medical Committee except (I) in cases in which the leave is for more than three months, or (2) in cases in which the leave is not for more than three months, or leave three months or less is extended beyond three month but the Medical Committee granting the original certificate or the certificate for extension state at the time of granting such certificate, that the Government servant need not appear before another \committee to obtain the certificate of fitness to return to duty.

No traveling allowance will be paid to an office for journeys performed by him to appear before a Medical Committee to obtain a certificate of fitness to return to duty.

In the case of subordinate Police Officers the authority which granted the leave has discretion to admit a certificate by any registered medical practitioner.

(b) All applications for leave, or for extensions of leave, shall be made through the proper channel to the authority competent to grant the leave. The form of application shall be, in the case of gazetted officers A.F. No. 74, and in the case of subordinates Police Rules Form 8.4(b). Nothing in this rule shall debar a Superintendent of Police from requiring those police officers subordinate to him, who are in a position to do so, to apply verbally for leave in office or orderly room. When prescribed forms are not available, applications may be made by ordinary letter.

(c) Gazetted officers applying for leave, or extension leave, on medical certificate, are required to appear before a medical board, in accordance with the provisions of Chapter XI of Punjab Financial Handbook No. 2, Volume II. Subordinate police offices are required to support applications for leave on medical certificate of the Civil Surgeon of the district in which they are serving. Applications for extension of such leave must ordinary be similarly supported by the certificate of the Civil Surgeon of the district where the applicant is residing while on leave. If the applicant for an extension of leave is incapacitated by illness from appearing before the Civil Surgeon, it is within the discretion of the authority empowered to grant the leave to accept the certificate of any registered medical practitioner. The grant of a medical certificate is not equivalent to the grant of leave and confers no right to leave; the certificate must be forwarded to the authority competent to grant leave, whose orders must be awaited. Except on strong grounds, leave recommended in the certificate of a competent medical authority should be granted.

(d) A police officer returning from leave is not entitled as of right to resume the post which he held before going on leave unless the order granting him leave specifically preserved his lien on such post. He must report his return to the authority which granted his leave and unless orders of posting have already been conveyed to him, await orders.

(e) A police officer holding a temporary post may be granted leave, within the limits allowed by rule 16.2 Punjab financial Handbook No.2, Volume II, provided

he has held such temporary post for at least two years or, if he has held such post for less than two years, provided no extra expense to Government is involved. Probationary police officers may be granted such leave as would be admissible to them under these rules if they had been confirmed in their appointments; but leave to probationers while undergoing instructions will not only be granted in cases of special urgency.

8.5. ***Casual leave-grant of***

(1) Casual leave is a privilege granted by Government in the nature of a brief holiday, and is not treated as absence from duty. Such leave, consequently, shall not be entered in leave accounts.

(2) Casual leave may be granted by the authorities shown in rule 8.9 below, subject to the condition that it does not exceed ten day at any one time or twenty days in a year and that leave exceeding four days is not granted more than twice in a year.

(3) Exceptions to the provisions of rule 8.5 (2) are as follows:--

(a) Members of the Indian Auxiliary Force may, if they can be spared, be granted casual leave up to a fortnight at a time to attend an annual camp.

(b) Casual leave up to 30 days may be granted to police officers required to undergo treatment at a Pasteur Institute.

(c) A Police officer prohibited by the Civil Surgeon from attending his duties on account of infections disease in his family, may count the period of absence as casual leave up to a limit of 30 days.

Casual leave granted in accordance with these exceptions will not count against the annual amount of such admissible

8.6 ***Casual leave—restrictions regarding.***

(1) Casual leave may not be combined with other leave except in exceptional cases, when a Police office is prevented from attending to his duties by causes beyond his control. Rules 6.8 and 6.9 Punjab financial Handbook No. 2, Volume II, should be referred to in adjudicating such cases.

(2) Police officers on casual leave are prohibited from visiting places, whence their return with in the period of their leave is likely to be prevented by blocking of roads, breakdown in transport or similar accidental cause, or from which they cannot return to their headquarters within 36 hours' notice. For special and adequate reasons the Inspector-General may relax this rule in particular cases, but it should ordinarily be strictly observed.

No casual leave for visits to Kashmir and Kulu will, however, be given without the express sanctioned of Government. (Punjab Government letter No. 30415 (H.-Gaz.), dated 12th October, 1931).

8.7 ***Casual leave of Superintendents.***

(1) Police officers in independent charge of districts shall consult the District Magistrate when applying for casual leave, and shall state in their applications to the Deputy Inspector-General that the dates proposed by them are convenient to the District Magistrate.

8.8 ***Joining time***

(1) Police officers transferred from one post to another or returning from leave may be allowed joining time under the conditions laid down in Part IV of Fundamental Rules and Chapters 9 and 19 of Punjab Financial Handbook No. 2, Volume II, and subject to the limitations embodied in police Rules.

(2) Joining time will not ordinarily be allowed to sub-ordinary police officers transferred within the district in which they are serving, or returning from leave to the

same district as that from which they proceeded on leave. Police officers of all ranks may be required, by the authority empowered to transfer them or grant them leave, to take up their mew posts without joining time, if the interests of the public service so demand. Police officers required to proceed on temporary duty within or beyond the district in which they are serving are not considered to be transferred for the purposes of this rule.

8.13 *Leave registers*

The orderly head constable shall maintain an English register of application for leave in Form 8.14(a) and a leave register in Form 8.14(b). 8.17 *Holidays*

9.3 ***Detailed conditions of Admissibility of Persons military Service***

Instructions in regard to the circumstances in which former military service may be reckoned towards police pension are given below. Each case, after.

necessary verification, shall be forwarded through the Deputy Inspector-General to the Inspector-General for the orders of the local Government:-

(1) Military service, except service in the Imperial Service Troops, by an employee belonging to one of the classes mentioned in the note below may count towards service qualifying for civil pension, when such military service is itself pensionable, but has terminated before a pension has been earned in respect of it and has been rendered after the employee has attained the age of 20 years, and provided he has received no pension or gratuity from the Military Department in respect of such service.

(2) When any gratuity has been paid in respect of military service, such service can only count towards civil pension if the gratuity be refunded, such refund to be made in not more than thirty-six monthly instalments commencing from the date of completion of verification of military service. In such cases a reference should be made (for each case separately) of the Accountant-General, Punjab. When the case has been decided a note shall be made in the character roll and service book (if any).

Note: *The rule applies to Indian commissioned officers, non-commissioned officers and men of the Indian Army and to non-combatant departmental and regimental employees and followers of the supplemental services. It also applies to non-commissioned officers and men of the British service, warrant officers and departmental officers of the Commissary and Army Service Corps classes in respect of service with their units or departments in India.*

(3) A certificate shall be obtained from the Controller of Military Accounts in whose audit area the individual served prior to his retirement from military service, showing whether or not such employee had received

any pension or gratuity on discharge from the army, and whether or not the service rendered was pensionable and paid for from Indian Revenues or for which a pensionary contribution had been received by Indian Revenues. The reference to the Controller of Military Accounts should be accompanied with the sheet roll and the discharge certificate of the individual whenever these are available. He should also be asked to state whether the service was superior or inferior. This certificate shall be attached to the character roll of the individual concerned. A copy of the certificate shall immediately be sent to the Accountant-General.

(4) Indian Arm reservists who are permanently appointed to the Police and discharged from the Army before they have earned a pension under the Military rules may, subject to the provisions of Article 356, Civil Service Regulations, be allowed to count for Civil pension all previous military service with the colours and half of their reserve service.

These instructions apply to all Army reservists enrolled in the Police, who retire on or after the 2lst October, 1929, prior to which date reservists were not enrolled in the Police unless they first obtained their discharge from the reserve.

To be eligible for this concession reservists who have already been confirmed in the Police and have not taken their discharge from the Army within 12 months from the date of their confirmation under note 3 to Article 356 of the Civil Service Regulations may do so by 1st October, 1935. Those who do not take their discharge by that date will draw reservist pay and count their police service towards military pension and no towards civil pension until eventually discharged from the reserve, when their service will begin to count for civil pension. If any such reservist has actually earned a military pension, it shall not be granted while he continues to serve in the Police,- vide Article 526 (b), Civil Service Regulations.

Note: The word confirmation' used in this rule means confirmation with reference to Rule 12.21 in a permanent vacancy in the regular Police.

9.4 *Admissibility of leave periods for pension.*

9.5 *Emoluments.*

Emoluments and average emoluments shall be calculated in accordance with Articles 486 to 490, read with Article 355 (b), Civil Service Regulations. Cases of menial servants are dealt with under Articles 481 and 482, Civil Service Regulations.

9.6. *Preliminary verification of service*

(1) When an upper subordinate is likely within six months to retire from the public service, a statement of his services shall be prepared in Form No. 24 (obtainable from the treasury office) in accordance with instructions contained in Article 907 (a), Civil Service Regulations.

Note: *The verification must be finished before the application for pension is prepared, and if possible before the applicant retires or appears before the invaliding authority.*

(5) Whether any discrepancy exists or not, inferior service rendered before enrolment in the police should be verified by reference to the head of the office in which it was performed. If it is impossible to verify the service in this way the procedure prescribed in Article 908 (e), Civil Service Regulations, should be followed. Superior service can be verified by the Accountant General,--*vide* Article 908 (b), Civil Service Regulations, but if this is not possible, the procedure described above should be followed.

(6) The pension claims of police officers of rank not higher than head constables, who are permitted by the local Government to count their former military service towards civil pension under Article 356 of the Civil Service Regulations, should be treated under the ordinary rules, and the statement of service in Form 24 forwarded to the officer-in-charge, Pension Branch, Accountant General's Office, Lahore, for verification of their claims to pension six months before their retirement as acquired by Article 907 (b) and (c) of the Civil Service Regulations.

9.7 *Alteration in age*

(1) The date of birth shown in the character roll or corresponding record, can be altered only with the sanction of the Inspector General of Police, on production of proof to his satisfaction. If the recorded age does not tally with that certified by an invaliding medical officer, board or committee, and the discrepancy affects the title to pension or liability to superannuation, the matter should be reported and the officer should not be discharged till the orders of the Inspector-General have been received. In the case of an officer whose year of birth or year and month of birth only is known, but not the exact date, the 1st July of the year or 16th of the month, respectively, should be treated as the date of birth for the purpose of calculation of pension,-*vide* note under Article 283 of the Audit Code, Volume I. The date of birth of all officers enrolled before the 1st October, 1933, may be allowed to remain as already recorded.

(2) Further orders as to the conditions under which alterations of age may be sanctioned are contained in letter No. 20076 (Home Gazette) of 4th July, 1928, from the Chief Secretary to Government, Punjab. According to these orders, an alteration may only be made, after special enquiry, if applied for within two years of the applicant's entry into Government service. The Provincial Government may, however, make a correction in the recorded age of a Government servant at any time, if it is, satisfied that age has been incorrectly recorded with the object that the Government servant may derive unfair advantage.

9.8 *Classes of pensions.*

Pensions admissible to police officers and menial servant are detailed below

9.9 *Invalid pensions*

An invalid pension proportionate to the length of service is awarded to a police officer who by bodily or mental infirmity is permanently incapacitated for further service in the police. If the incapacity is directly due to irregular or

intemperate habits, no pension can be granted. If it has not been directly caused by such habits but has been accelerated or aggravated by them, it will be for the authority by whom the pension may be granted to decide what reduction should be made on this account (Articles 441, 454 and 474, Civil Service Regulations). If the length of the invalid's service is less than ten years a gratuity only will be admissible. [Article 474 (a), Civil Service Regulations]. Superintendents are required to be on their guard against endeavours to retire on invalid pension by officers who are capable of serving longer.

9.10 ***Invalid rolls.***

Police officers whose cases fall under the above rule shall be sent to the Civil Surgeon with a letter in Form 9.10(a). If the Civil Surgeon is of opinion that the police officer should be invalided he should be asked to fill in an invaliding roll [Form 9.10 (b)] on receipt of which steps should be taken to prepare the pension papers without delay. If the incapacity is not declared to be complete and permanent, he should, if possible, be retained in employment on light duty. If a pension is granted the capacity for partially earning a living shall be taken account of in assessing its amount, - (*vide* Articles 427 and 447 (b) Civil Service Regulations).

9.11 ***Surgical operations not compulsory.***

A police officer need not be subjected to a dangerous operation merely to render him fit to perform his duties.

9.12 ***Incapacity due to intemperance.***

Whenever the Civil Surgeon is of opinion that the incapacity of a proposed invalid is caused wholly or partially, by irregular or intemperate habits, it shall be the duty of the Superintendent, in communication with such Civil surgeon. To investigate and place on record the medical and police history of such officer. If should be decide whether a police officer's inefficiency in the result of irregular

habits, or whether it is due to one act which, form neglect, may have resulted in ruining his constitution and health. The mere fact that a police officer has suffered form syphilis is not sufficient to make him liable to the forfeiture or reduction of pension. Such cases will be decided on consideration of their history as a whole. The record in such cases shall be submitted to the Deputy Inspector-General for orders, with the other documents of the case.

9.13 *Invaliding Boards*

If the pension applied for exceeds Rs 100 a month a certificate by a single medial officer should not be accepted as sufficient. In such a case the application shall be produced before the standing medical board or an invaliding committee(vide Chapter VIII of Punjab Medical Manual) with the following documents :-

(i) The invaliding rill signed by the civil Surgeon or competent medical officer. (ii) The normal roll (Form No. 9.13), the character roll and (iii) the medical history of the officer.

9.14 *Retention in service after date of invalidment.*

D.O. No. 890-G-37/58`4 (H-Gaz):

Dated Lahore, the 19th February, 1937

Subject:- RELIEF TO BE GIVEN TO DEPUTY COMMISSIONER AND OTHER ADINSTRATIVE AND EXECTIVE OFFICERS IN CLERICAL WORK

My Dear Sir,

I AM desired to inform you that at the instance of His Excellency the Viceroy, and exhaustive inquiry was recently held into the touring of district officers. The latter were asked to bring to the notice of Government nay matters which tended to interfere with touring. The inquiry has elicited an almost general complaint.

(i) that unnecessary reference are often made to district officers by the Secretariat or by Head of Department asking for information on report and.

(ii) that where necessary reference are made inadequate in time is sometimes given to reply the.

(2) Proposals which are circulated form the Secretariat for opinions consist of Legislative measures and other reference. With regard to the former there are standing Orders (Paragraph 417 of the Secretariat Instruction) that it is undesirables to add to the pre-occupation of district officer by asking for opinion on question of

which they have little knowledge or which do not seriously affect their district, and the attention of all officer in the Secretariat has recently been drawn to these instruction with a view to ensuring that superfluous calls are not made on the time to Deputy Commissioners do divert them form their more important duties.

(3) With regard to other references, the Governor in Council acting with Ministers has been pleased to lay down the following principles for observances in the Secretariat :-

(i) No call for information should be made unless it is necessary for the disposal of a case, and is not available in the Secretariat of officer of the Head Departmental concerned.

(ii) While Commissioner and Deputy Commissioners should be freely consulted about questions of Policy particular case affecting their charges, care should be taken to see that reference are not made, unless it is clearly desirable to have the views of the Commissioners of Deputy Commissioners, and, in pernicious practice should be checked of making reference with the object of temporarily getting rid of a case.

(iii) Where a reference is necessary, reasonable time should be given for a reply. What is reasonable will depend on the nature of the case. Sometimes it is necessary to have an immediate reply at other an early reply is necessary. Often period of two or three month may safely be given. Unless the case is immediate of very urgent, referring authorities should given adequate time for the material necessary for reply to be collected.

(iv) Complaints or applications are often made direct to Government, which related to matters of a purely local character. Sometimes they are sufficiently important or serious to merit a report to Government by the local authorities. More often they can be left to the latter for disposal. Where this is the case, ;there are two ways of dealing with them in the Secretariat, the first is to return the complaint or application to the sender for presentation to the proper authority, and the second is to send it in original through the proper channel to the competent authority for disposal. Where the fist method is appropriate, it is to be preferred to the second, form local officer on application and complaints of this kind, unless it is clearly desirable for Government to take up the matter. The practice to sending

reference form the Secretariat marked “for disposal or report” should case. The endorsement should make it clearly whether the reference is for disposal or for report
