

# People and Narrative Intelligence Analyst

Discover People & Narrative Intelligence: The New Cyber Intelligence Training - Tier 5  
of Intelligence Competency

**Total-spectrum PEOPINT analysis and training**

**Enroll**

People & Narrative Intelligence is about the human side of cyber intelligence. In this training, you learn how people's actions and decisions can impact digital safety. Cyber threats often involve tricking or influencing people.

For example, hackers might use social engineering (tricks to deceive someone into divulging secrets) or spread false information. People Intelligence teaches you to understand these tactics and protect against them. It combines psychology, sociology, and technology to study how humans interact with the digital world.

Why Does People & Narrative Intelligence Matter?

Cybersecurity is not only about computers and code – it is also about people. Even the strongest firewall can fail if a person falls for a fake email trick. This is why People & Narrative Intelligence matters.

It focuses on the one thing technology alone cannot handle: human behavior. By studying People & Narrative Intelligence, you learn why people make certain choices online. You also learn how to predict and prevent dangers that target emotions and trust. The mission of this training is to make cyberspace safer by understanding and guiding people.

What Will You Learn?

Joining the People & Narrative Intelligence training means you will gain unique abilities that blend technical know-how with people skills. As a student in this training, you will:

- Analyze social media and online communities to spot threats and rumors before they spread.
- Learn to recognize and avoid social engineering attacks, such as phishing, by identifying the tricks hackers use to deceive people.
- Understand digital psychology and discover why people click on risky links or believe false information.
- Develop your communication skills to educate friends and community members about online safety.
- Work on real team projects and solve problems where technology and human nature meet.

All these experiences will prepare you to think one step ahead of cybercriminals. You will be able to identify patterns in human behavior and utilize that insight to safeguard data and people.

Be Part of a New Cyber Frontier

Because People & Narrative Intelligence is a new training, you have the chance to shape its future. You will be among the first to explore this exciting field. This means you can contribute fresh ideas and make a real difference. The skills you learn here will also open doors to many careers.

Cyber Intelligence organizations, government agencies, and research labs all need experts who understand the human side of tech. With People & Narrative Intelligence skills, you could become:

- A cyber analyst who studies hacker groups and predicts their moves.
- A security advisor who helps organizations keep their online communities safe.
- An innovator who creates new tools to protect people online.

Join Us and Make an Impact

People & Narrative Intelligence is more than a program – it is a mission. It calls on students who are curious, caring, and bold. If you want to defend communities and make cyberspace safer, this is the place for you. The training welcomes anyone ready to learn and lead. By joining People & Narrative Intelligence, you will gain knowledge and become part of a team dedicated to positive change in the digital world.

Take the next step today. Join the People & Narrative Intelligence training and be a pioneer in a cyber intelligence revolution. Your journey in this training will empower you to protect others and shape the future of cyber intelligence. You will do all this by understanding the power of people.

## Course Curriculum PEOPINT & NARINT

### **Introduction to Intelligence Disciplines - A Playbook for Understanding Human-Centric Operations**

⇒ [Understanding Traditional Human Intelligence \(HUMINT\) Structures\(8:30\)](#)

**START**

## PEOPINT Module 1

⇒ [Understanding Modern Human-Centric Intelligence\(42:40\)](#)

START

## Introduction to Intelligence Disciplines

⇒ [Introduction to Intelligence Disciplines -A Playbook for Understanding Human-Centric Operations](#)

(33:56)

START

## PEOPINT Module 2

⇒ [Unpacking the Architecture of Influence\(36:15\)](#)

START

▶ [The Subversive Architecture of PEOPINT - Playbook Two\(35:25\)](#)

START

## PEOPINT Module 3

⇒ [Comparative PEOPINT Doctrine\(31:54\)](#)

START

⇒ [A Practical Guide to Analyzing PEOPINT Case Files\(35:47\)](#)

START

## PEOPINT Module 4

⇒ [Introduction to the Cognitive Warfare Ecosystem\(46:25\)](#)

START

⇒ [Visualizing Complexity\(26:22\)](#)

START

## Case Studies in Embedded Subversion - Interpreting Doctrinal Guides for PEOPINT Analysis

⇒ [Introduction to PEOPINT Operational Applications – OSINT Methods\(19:24\)](#)

START

⇒ [Interpreting Doctrinal Guides for PEOPINT Analysis\(28:08\)](#)

START

## PEOPINT Module 5

⇒ [Collection and Influence in Intelligence\(27:48\)](#)

START

=x [PEOPINT - Infographics\(18:58\)](#)

START

## **Profiling the Unwitting Participant - A Playbook for Understanding Human Vulnerabilities in PEOPINT**

=x [The Unknowing Instrument](#)

START

## **PEOPINT Module 6**

=x [Examine Embedded Subversion\(50:55\)](#)

START

=x [Mermaid dot Live\(33:48\)](#)

START

## **Narrative Intelligence (NARINT) - A Playbook for Deconstructing and Countering Influence Narratives**

=x [Understanding the Power of Stories](#)

START

=x [AI-Driven Social Mapping\(24:03\)](#)

START

## **PEOPINT Module 7**

=x [Understanding the Unwitting Participant in PEOPINT\(58:52\)](#)

START

## **National-Level Countermeasures - A Playbook for Building Societal Resilience and Defense**

=x [The Imperative for a Multi-Layered Defensive Architecture Against PEOPINT](#)

START

## **PEOPINT Module 8**

=x [Understanding and Countering Narratives – An Introduction to NARINT\(39:33\)](#)

START

=x [OSINT Simulators - NARINT\(18:02\)](#)

START

## **Capstone Simulation & Final Assessment - A Playbook for Applied PEOPINT Strategy and Analysis**

⇒ [Demonstrating Comprehensive PEOPINT Mastery](#)

START

## PEOPINT Module 9

⇒ [Building National Resilience - Countering PEOPINT and Cognitive Warfare](#)

(40:03)

START

## PEOPINT Module 10

⇒ [Applying Knowledge in Simulated Environments\(36:32\)](#)

START

⇒ [Sentiment Monitors in PEOPINT Analysis\(23:15\)](#)

START

## Primary Adversaries

⇒ [Chinese PEOPINT\(56:52\)](#)

START

⇒ [Russian PEOPINT\(37:53\)](#)

START

⇒ [DPRK PEOPINT\(33:46\)](#)

START

⇒ [Iranian PEOPINT\(35:54\)](#)

START

## Extensive Readings from Treadstone 71

≡ [PEOPINT Doctrine and Cognitive Warfare: Methods, Vulnerabilities, and Defenses](#)

START

**Choose a Pricing Option**

 **\$2,499**

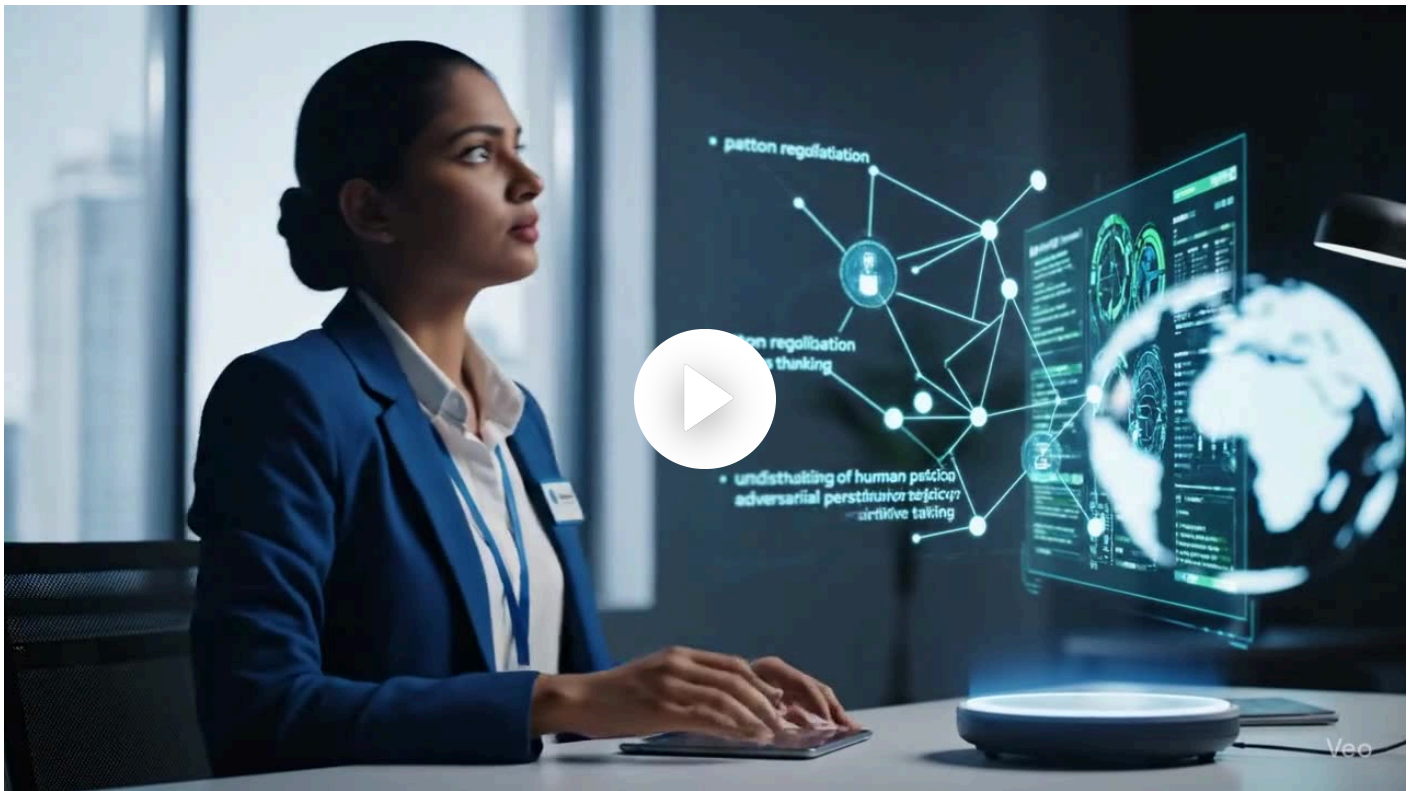

**Standard PEOP**

or pay in installments:

**Klarna**  **Afterpay**  
As low as \$120 / month. [See plans](#)

**Enroll now**
